Portfolio profile

A global emerging equity portfolio aims to provide investors with long-term capital growth through active stock selection in global emerging equity markets. The portfolio may also invest from time to time on an opportunistic basis in countries which are considered as frontier or developed markets to a maximum of 15% aggregate.

Investor profile

The portfolio is suitable for investors seeking global exposure to emerging markets as part of their overall investment strategy, with maximum capital appreciation as their primary goal. Investors should have a high tolerance for short term market volatility in order to achieve long-term objectives.
